Space Biosciences/ Space Life Scienc

Study of biological and biomedical processes using **live specimens** as experimental subjects

ALIVE??

1. Movement 2. Organization 3. Homeostasis 4. Energy 5. Reproduction 6. Growth

- Early years: to assess the ability of living organisms to survive spaceflight
- What we know now? : Animals, humans and plants can withstand exposure to microgravity (μ -g), cosmic radiation, and the rigors of launch and re-entry
- **Current focus:** biological changes that occur during and after spaceflight

ABOUT COLLEGE

The Union Christian College, Aluva was founded in 1921 as an ecumenical Indian Christian Initiative in the field of higher education in Kerala. The college is located on the banks of river Periyar, about 12 kilometers away from Cochin International Airport. Affiliated to the Mahatma Gandhi University Kottayam, the institution is known for its academic excellence and social commitment, and has been rated 'A' Grade by the National Assessment & Accreditation Council (NAAC).

ABOUT DEPARTMENTS

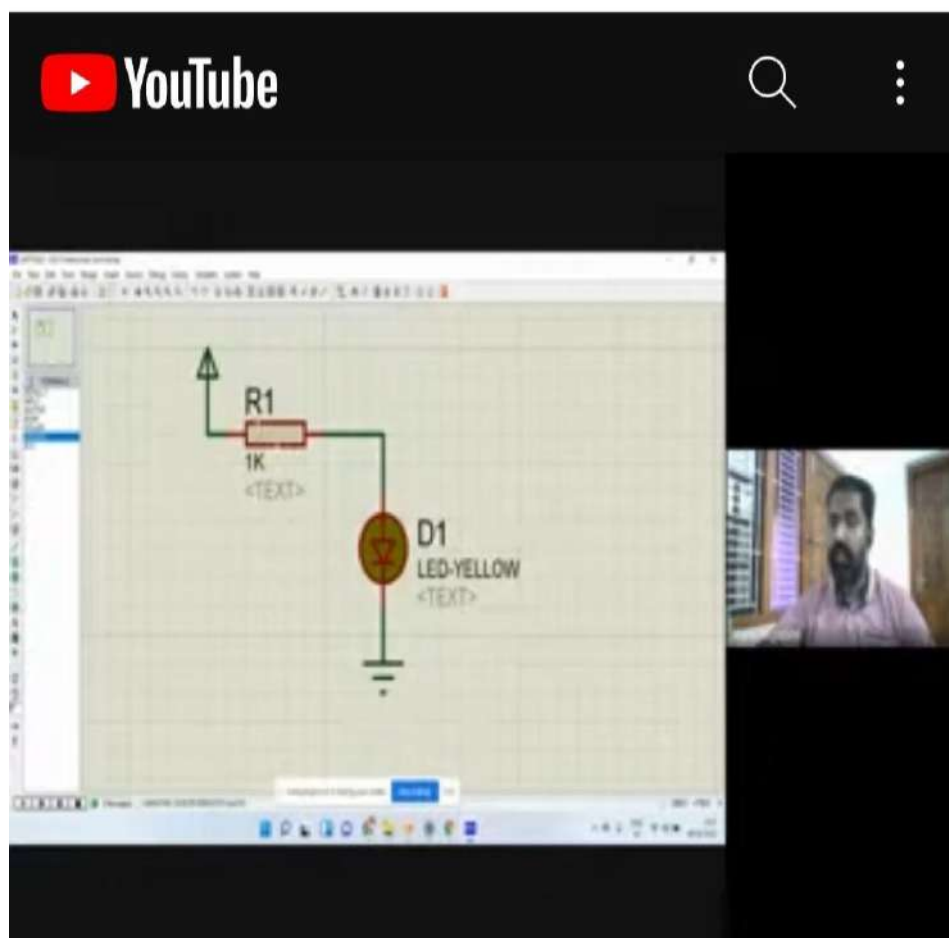

B.Sc. Programme in Electronics & Computer Maintenance is a two core courses programme under choice based course credit and semester system. It was started in 2001 as a U.G.C. sponsored vocational course. The programme aims to provide a strong foundation for developing skills in electronic circuit designing, software development, assembling, troubleshooting and maintenance of computers with the objective to equip students to pursue careers in Electronics, IT and Computer Hardware related fields or to go in for higher studies in the related disciplines and also enable students to start an enterprise of their own.

The department of Physics, Union Christian College, Aluva, has scaled new heights since its inception in 1926. The B. Sc. Physics course was started in 1939. In 1958, the department saw the dawn of a new horizon with the sanction of M. Sc. Physics which was the first approved PG course by UGC to a private college in Kerala. The department became a recognised research centre under M G University in 1985 and from 2011 onwards it began to flourish into a full-fledged research group.
