1.	Title of the Programme	:	Entrepreneurship development programme- grafting techniques.
2.	Name of the Coordinator	:	Dr.M. AnilKumar; Head of the Department, Department of Botany, Union Christian College, Aluva.
3.	Organizing Department	:	Botany
4.	Date and Duration	:	23-08-2022
5.	Number of participants	•	18
6.	Resource Person	:	Anish N.V; Employee, Agricultural Research Station, Mannuthy.
7.	Objective of the Programme	:	The workshop on grafting aims to focus on teaching the participants the techniques and principles of grafting.  During a grafting workshop, participants can expect to learn about the different types of grafting methods, such as whip and tongue, cleft, side-veneer, and bud grafting. They will also be introduced to the tools and materials needed for successful grafting, including grafting knives, rootstocks, scion wood, and grafting tape.

8.	Detailed description of the event	:	The department of Botany initiated the grafting of the prestigious "Gandhimavu", a heritage symbol of U.C College planted by Mahatma Gandhi during his visit to Aluva on 18th March 1925. The program envisages the multiplication of 100 saplings of Gandhimavu in this centenary year so as to propagate and plant it in places where the names of Gandhiji and U.C college fit well. The program was inaugurated by Prof. Dr. M.I. Punnoose, principal, by handing over a suitable branch for the first grafting ceremony.
9.	Outcome of the event/Evaluation by programme Coordinator	:	The workshop included both theoretical and hands-on components. In the theoretical part, participants learned about the science behind grafting, the compatibility between rootstocks and scion wood, and the factors that influence graft success. Mr. Anish M.V discussed the advantages and limitations of grafting in plant propagation.

## 11. Feedback from students, faculty and other stakeholders

In the hands-on portion of the workshop, participants got the opportunity to practice grafting techniques under the guidance of Mr. Anish N.V. They learned to make precise cuts, align the cambium layers of the rootstock and scion, and secure the graft union properly.

This hands-on practice was crucial for developing the necessary skills and confidence in grafting especially for the students of Botany Department where horticulture is included in the syllabus.
