

# UNION CHRISTIAN COLLEGE ALUVA-2

**SSR 5<sup>th</sup> CYCLE 2023**

**Criterion 1**

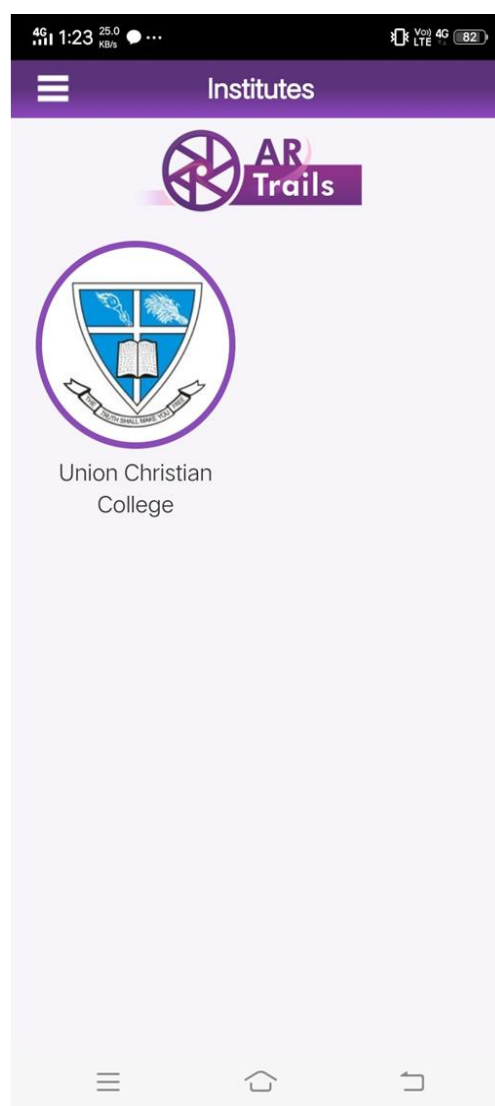

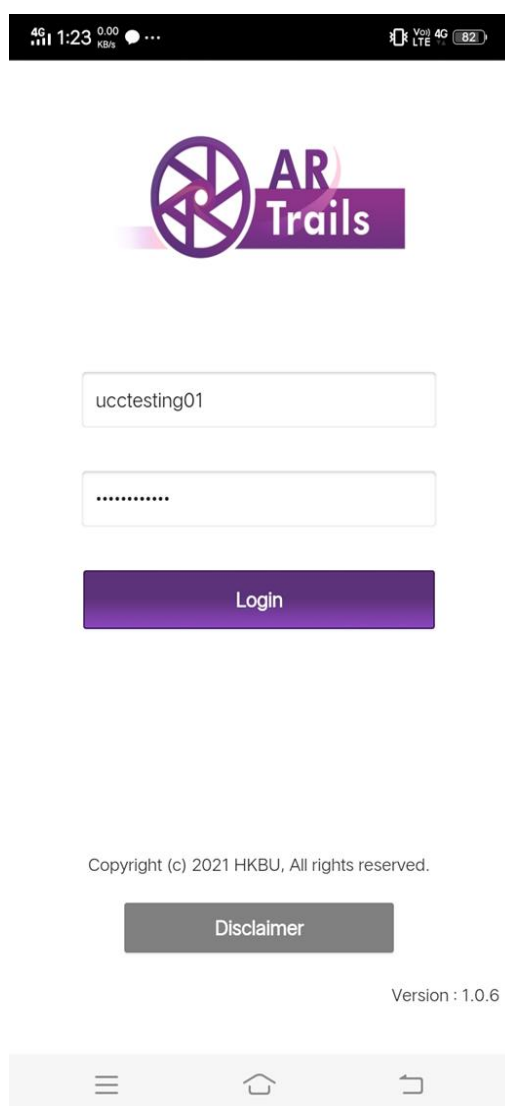

## **1.1.1 Curriculum Planning and Implementation**

## VALUE EDUCATION

Our institution, with its strong ideals, has uniquely designed a 30-hour course spread over three years in order to inculcate values in the mind-set of the students. Different topics related to empathy, respect, ethics, equality, environmental awareness etc.

**College uses augmented reality application named AR Trails developed in association with Hong Kong Baptist University to supplement value education classes.**

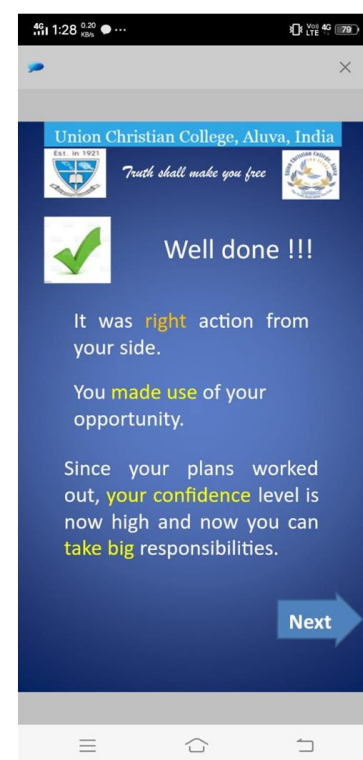

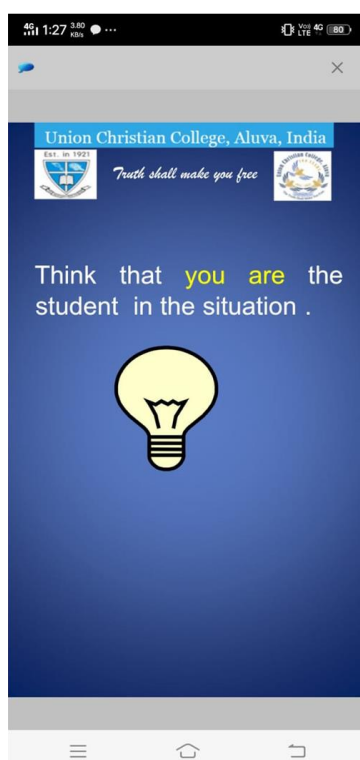

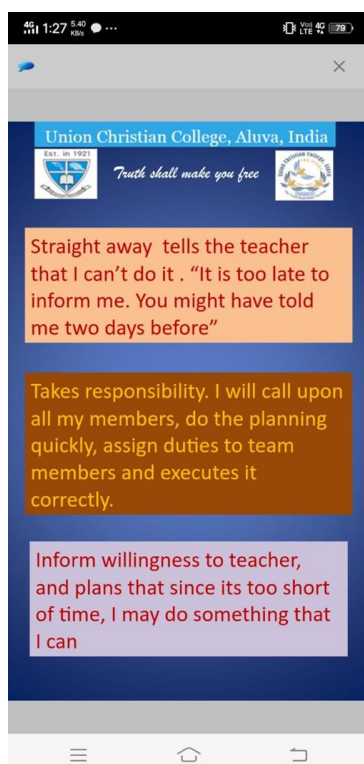

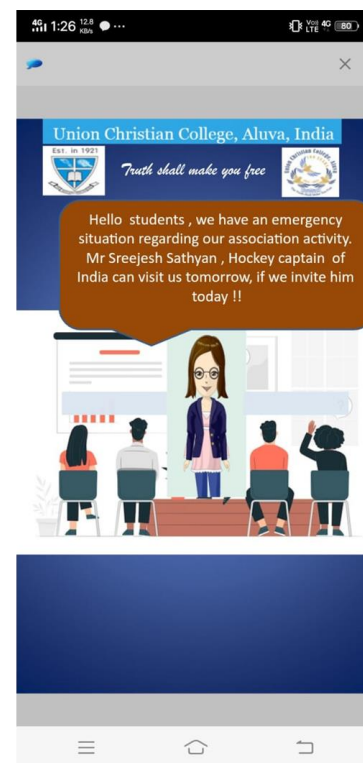

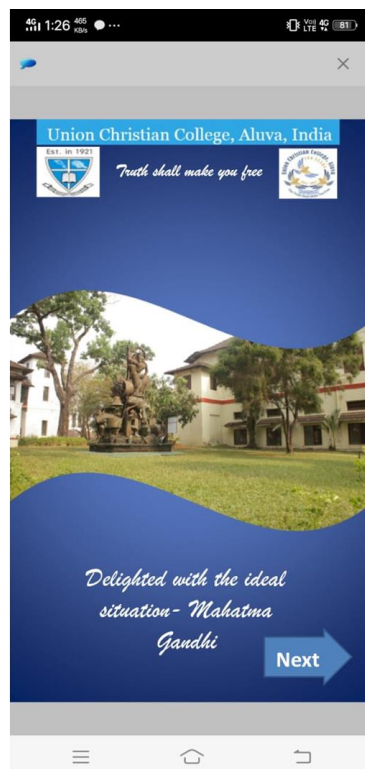

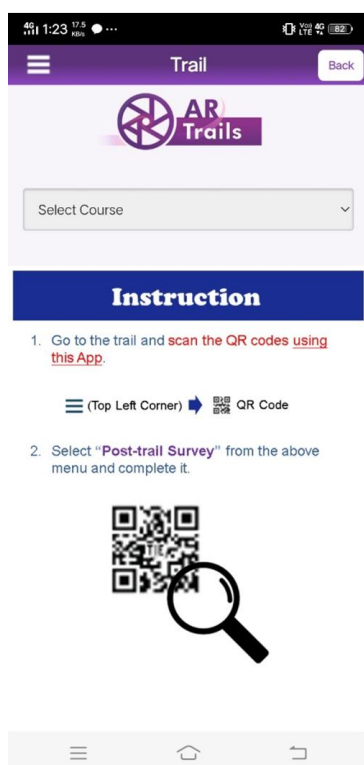

# UNION CHRISTIAN COLLEGE, ALUVA

Affiliated to Mahatma Gandhi University, Kottayam, India

2023

## VALUE EDUCATION 2022-23

3 different activities are planned for the day. However, one class will be engaged in only one activity.

### Activity 1

Topic : Respect

Respect means that you accept somebody for who they are, even when they are different from you or you don't agree with them.

Respect is important because it shows that you value someone as a person and not just because of what they can do for you. When a person is respectful to others they feel less stressed and anxious all around.

Respect is the foundation for a good relationship. Respect breeds tolerance and acceptance and it translates to success.

Divide the class into groups of 10. 10 mins

Share the given video with the class representative for distribution among classmates 5 mins

The students shall now watch the video. 10 mins

Students shall answer the following questions, first by themselves, and then shall share them with the group.

1. Make a list of all people you respect.
2. Make a list of all other living things you respect.
3. Make a list of all non living objects you respect.
4. Now, define respect

### Activity 2

Value trail

This is an innovative strategy that we have employed for conducting value education sessions through the use of a mobile app. The app has to be downloaded by all students and teachers. It provides access to different 'scenarios' centered around a particular value.

This information can be obtained by scanning a QR code. The QR code will be made available in the classroom on the day of value education session.

Directions

1. Ensure that all students in the class have downloaded the required app on their phones.
2. Split the class into 4 groups.
3. A volunteer can go to each group with the plate carrying the QR code and all students may start accessing the page.
4. They will be led through a scenario and will be given some options and they will have to choose their ideal response. Encourage the students to navigate through the pages.

5. FOR GROUP DISCUSSION- Each group will be assigned one option-they have to think on behalf of that option, like as if they would select that response to the scenario. Each group can find out reasons for why people behave in that manner, and about the consequences they may face. Encourage them to share their personal experience in this area.

6. Teacher can share personal anecdotes.  
Conclude the discussion.

### Activity 3

Peer learning- being a study buddy

1. Divide the class into groups of 5 or 6 students.
2. Each group is further divided into 2 teams (-of 2 or 3 students each).
3. Team A is given a topic.

Team B is given another topic.

Students have to research about the topic for 5 -10 mins.

Then teach about it to the other team.

4. The students would then share their views about the experience of teaching and of learning.

The following questions may be asked:

- # How can I help my friend in academics?
- # What are the characteristics of a good study buddy?
- # How can i learn better

Topics: Fibonacci number system and application

Prosapagnosia

Astatine

Krypton and cold war

Bermuda triangle
