

Appreciation from District Administration for Flood Relief camp

In 2018, when Kerala was affected by an unprecedented flood, Union Christian College was one of the flood relief camps. The college could accommodate around 15000 people and provided with food and accommodation. Immediate flood relief measures were done to support the affected localities. The institution extended this support for a month by providing the institutional infrastructure to accommodate the affected population. As a token of appreciation the District Administration congratulated the institution and expressed the Government's gratitude.
