<b>No. of Participants</b>	: 36
<b>Resource Person/s</b>	: Dr.Prasantha C N & Dr. Elizabeth V Mathew
<b>Organizing Agencies</b>	: Dept. of Zoology, Makeintern.com & Wetlab championship

The Dept of Zoology, in association with makeintern.com and Wetlab championship, conducted a workshop on DNA fingerprinting on Sept 19 and 20, 2019. Ms Elizabeth V. Mathew facilitated the workshop in the capacity of coordinator and Dr Prasantha C. N. from Bangalore was the main faculty. Thirty-eight delegates from various colleges in and around Cochin participated actively. Participants included undergraduate, postgraduate and research students. Hands on sessions on DNA isolation, PCR and gel electrophoresis were held. A session on bioinformatics was conducted on the second day.

## 10. DIGITAL ELECTRONICS WORKSHOP

### PROGRAMME REPORT

**Date of the Programme** : 05/10/2019  
**No. of Participants** : 26  
**Resource Person/s** : Mr. Ajan P J, Faculty, Dept of Electronics & Computer Maintenance  
**Organising Agencies** : Dept of Electronics and Computer Maintenance & Prayan Learning

The dept of Electronics & Computer Maintenance organised a one-day workshop on digital electronics for students of BSc Computer Science to provide them fundamental concepts associated with digital logic and circuit design. The workshop helped the students to familiarize with the logic gates, and combinational and sequential circuits utilized in the different digital circuits and systems.

**Use Case 1**  
Cryptocurrencies - The Chaos Continues..

And there the people actually transact in bitcoin and Silk Road was dismantled by FBI around 2013. But they are still a lot of business in the dark web that happens using bitcoin because bitcoin is almost anonymous.

**Introduction to Blockchain**

A blockchain is a linked list

Linked list is a set of blocks which are connected to each other by some kind of a link

In case of a data structure linked list, nodes are connected by pointers and pointers are basically memory addresses.

In case of a blockchain the blockchain is a distributed data structure, which is replicated at various nodes or various computers and therefore, the linking is not based on memory addresses.

**ABOUT WEBINAR**  
 The Internet of Things (IoT) is a network of connected physical devices that use sensors and Application Programming Interface (API) to exchange data over a network. In recent years, the number of IoT devices have rapidly increased from 2 billion in 2006 to 23.14 billion in 2018. Given its current growth rate, the number of IoT devices is expected to reach 50 million by 2020. Consequently, modern developers are actively searching for avenues where they can learn more about this upcoming technology and equip themselves for the future changes. The webinar will provide a general introduction on IoT and Its Applications.

**RESOURCE PERSON**  
 Mr. Raghesh T P is an experienced IT professional with 19 years of industry experience. He is currently working with Tata Elxsi as a Technical Project Manager. He had worked with various companies such as Wipro Technologies and Wi-Silica. He is an expert in Multiple Technologies and domains such as IoT, Analytics, Media & Entertainment, Telecom & Wireless.

**Mr. Diyab A K**  
 Knowledge Officer  
 ICTAK, Trivandrum  
 Kerala

**RESOURCE PERSON**  
 Mr.Diyab A K, working as a Knowledge Officer in ICTAK has five years of experience in IT and Education/Training Industry. His expertise includes Technical Training for students and faculties from various institutions on various technologies like Robotic Process Automation, Web Application Development using MEAN Stack, Android Mobile Application Development and Software Testing. Prior to ICTAK he has worked as an Assistant Professor at Malabar College of Engineering and also worked as a Software Developer at Reubro International, Cochin.

**ABOUT WEBINAR**  
 Robotic Process Automation (RPA) is the use of software with Artificial Intelligence (AI) and Machine Learning capabilities to handle high-volume, repeatable tasks that previously required humans to perform. These tasks can include Queries, Calculations and Maintenance of Records and Transactions. As per the study of McKinsey & Company, 30-40% of the existing business process services are likely to be impacted by RPA. There is a huge demand for RPA Professionals in India and Abroad.

**ABOUT THE INSTITUTIONS**  
 Union Christian College, Aluva was founded way back in 1921 as a very prestigious institute of higher education in Kerala, South India. The college is affiliated to the Mahatma Gandhi University and is one of the top colleges in Kerala. B.Sc. Programme in Computer Maintenance & Electronics a two core course programme under choice based course credit and semester system. It was started in 2001 as a U.G.C sponsored vocational course. The program aims to provide a strong foundation for developing skills in electronic circuit designing, software development, assembling, troubleshooting and maintenance.

ICT Academy of Kerala is a Social Enterprise created in a Public Private Partnership model (PPP) for imparting ICT skills to the youths of Kerala and improve their employability opportunities in the industry. The Company is supported by Govt. of India, partnered by Govt. of Kerala and the IT industry.

**Resource Person/s** : Mr.Prabith Balagopalan, Enterprise Solution Architect, TCS Ltd.  
**Organising Agencies** : Dept of Electronics and Computer Maintenance

The Dept of Electronics & Computer Maintenance organised a webinar on a very contemporary area related to database sharing, on 09 July 2020. Blockchain is the underlying technology of cryptocurrencies and has application in healthcare, supply chain management etc. The resource person explained the relevance of training in Blockchain technology and its opportunities. The students appreciated the dept for organising the session on this new trend in technology. The webinar is uploaded in youtube- <https://youtu.be/hF6-CNGdaro>

**UNION CHRISTIAN COLLEGE ALUVA**  
 ALUVA-683102, KERALA, INDIA (ESTD. 1921)  
 (RE-ACCREDITED WITH 'A' GRADE BY NAAC)  
 DEPARTMENT OF ELECTRONICS & COMPUTER MAINTENANCE

**ORGANIZES AN INTERNATIONAL WEBINAR ON  
 BLOCKCHAIN - POWERING THE FUTURE**

*Union Christian College  
 Celebrating the 100th  
 Anniversary*

**DATE: 9 JULY 2020  
 TIME: 10 AM**

meet.google.com/yxe-cnsj-lhz

**ABOUT WEBINAR**  
 Blockchain is a shared, immutable ledger for recording transactions, tracking assets, and building trust. Rather than keeping a record of all transactions in a central location, blockchain utilizes a distributed ledger. For a given activity, a copy of the full ledger with all transactions is kept on each node in a distributing network. The blockchain method provides many benefits over centralized forms of record-keeping, including transparency of data and no single point of failure. Although cryptocurrencies are currently a primary driver for blockchain discussions, it makes sense that they would fall to the bottom of the list for potential corporate applications and let us discuss more to explore where all we can apply this emerging technology. The webinar will provide a general introduction on Blockchain Technology and its Opportunities

**RESOURCE PERSON**  
 Mr.Prabith Balagopalan is an MCA graduate from Calicut University and working in the IT industry for the past 14+ years. Currently, he is working as an Enterprise Solution Architect with Tata Consultancy Services (TCS) Ltd. Prior to joining TCS, he had worked in other major companies like Cognizant Technology Solutions (CTS) & UST Global. He has more than 6 years of experience in Banking and Finance Domain and well experienced in Software Application development using Core Microsoft Technologies

**What is a Blockchain**

- Blockchain is a shared, distributed ledger that facilitates the process of recording transactions and tracking assets in a business network.
- An asset can be tangible — a house, a car, cash, land — or intangible, like intellectual property, such as patents, copyrights, or branding.
- Virtually, anything of value, can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.
- The Term 'Block' is nothing but a bunch of transactions that have been added to the Blockchain.

**ABOUT WEBINAR**  
 Artificial Intelligence (AI) is a wide-ranging branch of computer science concerned with building smart machines capable of performing tasks that typically require human intelligence. It is an endeavor to replicate or simulate human intelligence in machines.  
 Machine learning is a method of data analysis that automates analytical model building. It is a branch of artificial intelligence based on the idea that systems can learn from data, identify patterns, and make decisions with minimal human intervention. The webinar will provide a general introduction to Artificial Intelligence and Machine Learning.

**ABOUT THE INSTITUTIONS**  
 Union Christian College, Aluva was founded way back in 1921 as a very prestigious institute of higher education in Kerala, South India. The college is affiliated to Mahatma Gandhi University and is one of the top colleges in Kerala. B.Sc. Program in Electronics & Computer Maintenance a two core course programme under choice based course credit and semester system. It was started in 2001 as a U.G.C sponsored vocational course. The program aims to provide a strong foundation for developing skills in electronic circuit designing, software development, assembling, troubleshooting, and maintenance.

**RESOURCE PERSONS**  
 Mr. John J. Padamadan is the Knowledge Officer at ICT Academy of Kerala, who has 9 years of corporate experience. He completed his B.Tech in Biomedical Engineering and has exposure in sales, service, and application engineering in leading MNCs in the biomedical industry. He's a certified specialist in Data Science & Analytics. His areas of interest are Data Science & Analytics, Machine Learning, Artificial Intelligence, Tableau, Database Management System, etc.  
 Ms. Gauri Balachandran is a Knowledge Officer at ICT Academy since 2019. Earlier, she was working at Ernst and Young as a Tax Analyst. Gauri has completed her Masters in Mathematics from Madras Christian College. Her areas of interest are Mathematics, Statistics, Machine Learning, Artificial Intelligence, and Data Science and Analytics.
